

Morningside Park Monarch Project

Thursday November 8, 2007

Welcome to Morningside Park

The largest park in my ward and one of most interesting parks in the City of Toronto.

Covering over 416 acres it is visited by numerous scout groups, families, and sports organizations.

Years ago my scout troop hiked and enjoyed bon fires on these grounds as my son's scout group is enjoying today.

Morningside Park is the perfect location for the Monarch Totem Pole Project and I am proud that it is in my ward.

I am thankful to Mr. Dorsey James in all of his work to beautify our park with his art and with his work with the 30 youth who worked on this magnificent 15 foot sculpture this summer.

Now I suggest that we install it before it gets away from us again.
