Dear Ward 43 Residents,

Happy Summer!

During City Council last month, the one stop subway extension, to the Scarborough Town Centre, the LRT to the University of Toronto Scarborough, were approved along with a number of other transportation proposals. I did not support the subway extension, to me a 7 stop LRT was the better option, both for ridership and financial reasons. I will now focus on ensuring the project is well managed. The Eglinton Crosstown East LRT line which will serve Ward 43 will follow a route along Kingston Road up Morningside into university. (One of the financial issues for me...the LRT is now unfunded because the one stop subway costs increased so much.)

Last month the Toronto Transit Commission held public consultations on their modernization plans for Wheel-Trans service. "Eligibility for Service" will be expanded with additional flexibility to address the public's growing needs. You may view the strategy [proposal](#) to be discussed this Fall in a Toronto Transit Commission Meeting.

This Fall, the TTC will be reviewing my request for a Community Bus for Ward 43. A comprehensive report intended to encompass the complete strategy including routings, phasing, benefits, and cost implications will be included.

Please continue to contact my office with any municipal issues my constituency office located at the Scarborough Civic Centre is available to receive you.

City of Toronto Councillor
Paul Ainslie

UTSC Testing Mass Notification Speakers - Thursday August 4

University of Toronto Scarborough's Department of Campus Safety and Security will test a series of audible outdoor announcements for our mass notification system, in the afternoon of Thursday, August 4th. In an effort to minimize any inconvenience to you and your family, test of the system will be done only between 12-3 p.m. The mass notification system includes outdoor speakers, which may be audible on or nearby Military Trail.

The testing is part of the University's effort to evaluate and improve our ability to provide timely and effective notifications in the unlikely event of an emergency on our campus.

If you have questions, please contact Carvill Lo at 416-287-7599 or locarvil@utsc.utoronto.ca

Request for lights along Cindy Nicholas Drive Path to Morningside: Area residents have asked for additional lighting along this well-used path in the evening to enhance ensure safety. City staff have investigated the concern and agree that lights are required. City staff have started the process to request installation of lights along the path. I want to thank the community for raising this concern.

**Request for Northbound Left Turn Priority Feature Time: [Link to Full Report](#)
Morningside Avenue at Ellesmere Road (PX719)**

Transportation staff were requested by residents to review the practicality of the installation for a northbound left turn "advanced green light" at Morningside Avenue at Ellesmere Road. Based on the review, it was concluded additional time for the northbound left turn priority feature is not recommended at this time.

This intersection operates on a fixed mode of control. The northbound left turn priority feature is callable and extendable by setback detector loop 6:30 a.m. to 9:15 a.m., and 3:45 p.m. to 6:15 p.m., Monday to Friday. There are no left turn "advanced green light"for southbound, westbound and eastbound vehicles.

Toronto Hydro Project Galloway Road – Lawrence Avenue E. (E16389/E16388) – Full Notice – Map

Toronto Hydro is planning to rebuild the aging underground electrical system in your community to help improve service reliability. The rebuild includes the replacement of the existing electrical cables and tap boxes within the City of Toronto's public property allowance in front of or adjacent to your lot.

This project is expected to begin by **mid July 2016** with an approximate completion date of **late October 2016**. The electrical portion is tentatively scheduled for **2017**. The boundaries include **Lawrence Avenue East** (North), **Andover Crescent** (East), **185 Galloway Road** (South), and **Galloway Road** (West). Throughout this project, power interruptions may be necessary to switch from the old to the new electrical system. Toronto Hydro intends to provide everyone with advance notice prior to any planned outages.

Road Resurfacing: [More Details/Map](#)

1. Ellesmere Road East of McCowan Road to Markham Road

2. Markham Road from Lawrence Avenue E. to Ellesmere Road

The City of Toronto will resurface Ellesmere Road and Markham Road as part of the 2016 Capital Works Program to renew aging city roads and sidewalk for current and future needs. Inspection of the road shows that it needs resurfacing and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair.

Toronto Hydro Project: Brimorton Rd – Scarborough Golf Club Rd (E16190) – Full Notice - Map

Toronto Hydro is planning to rebuild the aging overhead electrical system in the community to help improve service reliability. The rebuild includes upgrading overhead electrical cables, replacing hydro poles and installation of new civil infrastructure within the City of Toronto's public property allowance in front of or adjacent to your lot.

This project are expected to begin by **early August 2016** with an approximate completion date of **early March 2017**. The project area is along **Scarborough Golf Club Road** between **Ellesmere Road** (North), **Lawrence Avenue East** (South). Throughout this project, power interruptions may be necessary to switch from the old to the new electrical system. Toronto Hydro intends to provide everyone with advance notice prior to any planned outages.

Scarborough Gulf Club Road, road repairs- CNR to Kingston Road My office received many calls regarding the condition of the road surface on Scarborough gulf Club Road south of the CNR to Kingston Road. The area has sustained many cuts repaired with an asphalt patch. As a result the road has become very bumpy and difficult to drive through. Transportation services will be making repairs with hot asphalt.

**Delayed until 2017 - Guildwood Parkway Asphalt resurfacing and Curb replacement
Livingston Rd. to Galloway Rd.**

Due to the ongoing construction work at Guild Park and Gardens the Guildwood Parkway road resurfacing will take place in the Spring of 2017 to allow the current work to take place uninterrupted and more importantly for the new asphalt and curbs not to sustain any damage.

TRCA – Shoreline Clean up along the shore of Guild Park and Gardens

Work to clean up the dangerous and unsightly metal rebar along the shore of Guild Park and the nearby stretch of waterfront is beginning next week (starting August 2/16).

This improvement is part of the Toronto & Region Conservation Authority's (TRCA) Waterfront Project. Plans call for the TRCA to cover the existing metal reinforcement bars (rebar) and building rubble along the water's edge. Trucks will dump clean material over the affected area.

This new material will hide the hazardous fill, plus give further stabilization to the shore and the unimproved roadway between the Guild Park area and westward toward the Doris McCarthy Trail (south of Bellamy Road).

The TRCA is doing this work after the Guildwood Village Community Association has raised concerns about the poor condition of this popular walking area along Lake Ontario.

The TRCA anticipates this project will take about three weeks. It will require about 30 heavy trucks to transport clean fill to the waterfront area.

During the project, the TRCA is restricting public access along the unimproved road east of the Guild Inn, leading from Guildford Parkway (south of Galloway Road) down to the waterfront (see map).

This roadway will be closed to the public each weekday between 7 am to 5 pm to allow heavy trucks to travel unimpeded up and down this route.

The roadway will be available for pedestrian use at other times, including weekends.

For further information, the contact at the TRCA is Jet Taylor, Project Coordinator, Engineering Projects, Restoration and Infrastructure Division. Phone: 416-688-7627; Email: jtaylor@trca.on.ca

Upcoming Pesticide Use in Guild Park and South Marine Park – [Notice Link](#)

Urban Forestry will be using pesticide in Guildwood Park and South Marine Park starting July 28, to control invasive plant species. The attached briefing note will provide more information about the pesticides being used and species being treated.

Application is done by licensed city staff. Information signage will be posted, along with the standard warning signage, to provide more information to park users. Warning signage is posted 24 hours before treatment, and is removed 48 hours following treatment, according to MOE guidelines.

Work expected to take 4-5 work days; schedule will be dependent on weather conditions.

Toynbee Trail from Guildwood Parkway to Livingston Road – Request for Turn Restrictions:

Recently my office was asked to explore the possibility of installing a turn Restriction onto Toynbee Trail. The concern was that many cars were thought to be using Toynbee Trail to avoid the traffic on Guildwood Parkway.

The inquiry was directed to the City Transportation Division who reported they did not recommend pursuing turn regulations on Toynbee Trail or neighbourhood 'key intersections' until such time as an expansive petition of support (at least 25%) from the affected residents on a cited street(s).

Request for additional "Warning Signs": Guildwood Parkway – Full Report

Further to a request from my office, staff have completed their review of the above-noted matter. Based upon the work they did, they concluded the existing traffic warning signs ("Lane Ends" - Wa-23) are currently providing the appropriate advance notice to motorists that their lane will be terminating. To provide enhanced notification to motorists that their lane does terminate, staff will installing new "Left Lane Ends" tabs below the "Lane Ends" warning sign for both northbound and southbound motorists on Guildwood Parkway. These signs will be installed as soon as scheduling permits.

That City Council amend the 2017 Meeting Schedule by including a third day meeting day for all City Council meetings.

1b - Motion to Amend Item moved by Councillor Paul Ainslie (Carried)

That City Council amend the City Council meeting times in the 2017 Schedule by including a break from 6:00 p.m. to 6:30 p.m.

What's Inside

9. Council Highlights

Council Highlights

Toronto City Council meeting of July 12, 13, 14 and 15, 2016

Council Highlights is an informal summary of selected decisions made by Toronto City Council. Council dealt with about 300 topics/agenda items at its July meeting. The City Clerk's formal documentation is available at <http://www.toronto.ca/council>.

Toronto's 15-year transit plan

Council adopted recommendations for moving ahead with key projects that will form Toronto's transit network by 2031, including approval of additional technical and planning analysis of a SmartTrack concept with up to six new stations and an Eglinton West LRT (light-rail transit line), a one-stop Scarborough subway extension, an Eglinton East LRT and a Relief Line. Among the many recommendations and motions adopted, Council directed staff to work with intergovernmental partners in the next phase of analysis for a plan on funding the projects.

Plan to improve road safety

Council unanimously endorsed a five-year Road Safety Plan with the goal of reducing the number of road fatalities and serious injuries to zero. A report noted the recent trend of more traffic-related fatalities involving pedestrians, cyclists and older adults. Among motions adopted as part of this agenda item is a proposal to ask the Ministry of Transportation to consider re-introducing automated speed enforcement and a proposal for improving safety for pedestrians and cyclists by creating zones with reduced speed limits, improved pavement markings and signal-timing adjustments.

Consultation on City finances

Council approved undertaking public consultation on the City of Toronto's long-term financial direction. The public will be asked to provide input on expenditure management strategies, oversight of City programs and agencies, management of City assets, and revenue generation to support desired public services. Staff reported that Torontonians have demonstrated an interest in participating in a dialogue on municipal finances. The consultation will extend from this fall to next spring.

Schedule for 2017 budget process

After discussion and debate, Council approved the schedule for the City's 2017 budget process and set an across-the-board target for budget reduction. The reduction target is 2.6 per cent below the 2016 approved net operating budgets for all City programs, agencies, accountability offices and the Toronto Community Housing Corporation. All services are to be explored for efficiency-related savings. Council directed staff to prepare the 2017 tax-supported operating budget based on estimated revenue from a residential property tax increase at or below the rate of inflation.

Review of City real estate services

Council considered a report assessing how the City delivers real estate services and supported moving toward creating a centralized real estate entity that consolidates all core real estate and facilities

management operations and functions. Those operations are currently managed autonomously across 15 City agencies, corporations and divisions. The City's portfolio includes almost 7,000 buildings and about 12,000 hectares (29,000 acres) of land. The centralized entity would have a mandate that strengthens the City's ability to strategically promote City objectives.

Implementing supervised injection services

Council affirmed its support for implementing small-scale supervised injection services at Toronto Public Health (The Works), Queen West-Central Toronto Community Health Centre and South Riverdale Community Health Centre. The intention is to provide a safe and hygienic environment where people can inject pre-obtained drugs under a nurse's supervision. The three sites are in locations that have a high rate of injection drug use and associated high-risk behaviours.

Social housing in Toronto

In response to the report *Tenants First: A Way Forward for Toronto Community Housing and Social Housing in Toronto*, Council adopted a set of strategic directions and requested an implementation plan to support the City's efforts to provide clean, safe, well-maintained, affordable homes to social housing tenants. The initiative includes transitioning a portion of the Toronto Community Housing Corporation's portfolio to a new community-based, non-profit corporation and to community-based, non-profit providers of social housing.

Open Door affordable housing

Council approved the Open Door Affordable Housing Program to accelerate the creation of affordable housing in Toronto by providing City financial incentives, activating surplus public land for affordable housing and offering an Open Door planning service. Responding to a separate agenda item on affordable housing, Council authorized staff to enter into agreements with the Ontario government if, as anticipated, funding is made available to the City between now and October under a new federal/provincial program supporting affordable housing infrastructure.

City input on national housing strategy

Council endorsed asking Councillor Ana Bailão (Ward 18 Davenport), Toronto's Housing Advocate, to lead the City's response to federal consultation on creating a national housing strategy. Preparing the City's response will include obtaining input from other members of Council, housing stakeholders and the public. The Minister of Children, Families and Social Development recently launched federal consultations on creating a national housing strategy.

Text messaging for 911 response

Council supported a motion to ask the Toronto Police Services Board to consider the possibility of introducing texting from smartphones as a way for people to report an emergency via the 911 emergency dispatch service. The motion notes that there are situations in which making a voice phone call to 911 can attract unwanted attention and texting could provide a safe alternative.

Appointment of Ombudsman and Lobbyist Registrar

Council approved the appointment of Susan Opler as the City's new Ombudsman and Cristina De Caprio as the new Lobbyist Registrar, both effective September 12. Opler, who has extensive experience as a litigator, adjudicator, mediator and educator, will take over from interim Ombudsman Kwame Addo. De Caprio, who has held leadership positions in regulatory organizations and the non-profit sector, will take over from interim Lobbyist Registrar Stephen Littlejohn.

Acting Medical Officer of Health

Council appointed Dr. Barbara Yaffe the acting Medical Officer of Health (MOH) for Toronto effective August 1 and until Council appoints a new Medical Officer of Health. Dr. David McKeown, the current MOH, retires on July 31. Dr. Yaffe has been Director of Communicable Disease Control and an Associate Medical Officer of Health with Toronto Public Health since 1998.

Schools as community assets

Council adopted recommendations and motions tied to the Toronto District School Board's identification of many school properties that it expects to sell. Informed by an evaluation process carried out by staff, Council provided direction on five specific school properties (Thistletown, McNicoll, Silver Creek, Sir Robert Borden and Buttonwood Hill schools) for their importance to the City as community assets providing local services and green space. Council also approved a set of principles to guide the disposition and development of school properties in general.

Midtown community facility

Council agreed to direct staff to work out an agreement with the Toronto District School Board on building a planned new Davisville Junior Public School as a three-storey building, leaving space for the City to construct a recreation and aquatic facility on the same midtown Toronto site.

Attracting foreign investment

Council approved the City's participation as a funding partner in a new enterprise called Toronto Global along with Greater Toronto Area (GTA) municipal partners and with financial support from the Ontario and federal governments. Toronto Global is being formed to increase the GTA's share of direct investment attracted from around the world. The business and affairs of the City's Invest Toronto agency will be wound up after an orderly transition to Toronto Global.

Long-term strategy for managing waste

Council adopted a long-term waste management strategy for Toronto. The strategy includes the goal of working toward a circular economy and a zero-waste future that is measured by a "per capita" waste generation rate. A circular economy emphasizes preventing waste generation and maximizing resource recovery. Council's support included endorsing a 70 per cent target for residential waste diversion by 2026, among other actions and targets for waste management.

Rail freight corridor in Toronto

Council adopted recommendations that include directing City staff to participate in further discussions with Metrolinx and other participants on plans for a new rail freight corridor passing through part of Toronto. Staff were also asked to continue negotiations with Metrolinx concerning a new GO station at Bloor Street and the rail-corridor intersection at Dupont Street, among other actions.

Development at Union Station

Council approved an application for special grants and tax assistance, subject to certain conditions, for a landmark development proposed for the east side of Bay Street at Union Station. The proposed office towers at 45 and 141 Bay St. are considered a Transformative Project, which designates an important project that will enable the City to quickly achieve planning and economic development objectives such as creating new jobs and linking with regional transit initiatives.

Park under the Gardiner Expressway

Council approved a governance and funding model for programming, operating and maintaining a 1.75 kilometre area under the Gardiner Expressway as a linear park – described as a trail and network of public amenities – between Spadina and Strachan Avenues. The project, made possible by a substantial

private donation, will be operated as a not-for-profit charitable corporation. The first phase involves the area between Strachan Avenue and Bathurst Street with a trail connection extending to Spadina Avenue.

Waterfront transit

Council directed City staff in partnership with the Toronto Transit Commission and Waterfront Toronto to initiate the second phase of the Waterfront Transit Reset and create an implementation strategy to deliver a co-ordinated waterfront transit solution. In addition, Council adopted a motion calling for dialogue on the feasibility of a new transit hub at the Mr. Christie's site at 2150 Lake Shore Blvd. W. and to address the need for improved transit in the Humber Bay Shores area.

Proposed men's shelter

Council directed staff to continue their work with the local community to determine the size and program model for a men's shelter planned for a Runnymede Road site and report back to the Community Development and Recreation Committee. Staff were also asked to take several other steps to help ensure the shelter's successful integration into the neighbourhood.

Relocation of Etobicoke Civic Centre

Council agreed to ask Build Toronto to lead a design competition for a new Etobicoke Civic Centre complex on the City's Westwood Theatre lands at Bloor Street and Kipling Avenue. City staff and Build Toronto are also to report on costs and revenues associated with plans for the two City properties (the current civic centre site at Burnhamthorpe Road/The West Mall and the Bloor/Kipling site) as well as a City-owned property at Bloor and Islington Avenue – and to report on possible opportunities for including new affordable housing in future developments at the three sites.

Improving community safety

Council approved taking steps to enable new initiatives that support community safety to proceed, including the use of up to \$750,000 from the provincial and federal governments to fund community safety initiatives in response to incidences of violence this summer.

Amendments to the sign bylaw

Council adopted several amendments and directives involving the City's sign bylaw. Any signs that may have historical or cultural significance, for example, are to be identified when City Planning staff review site-plan applications and staff are to look into options for displaying those signs in other Toronto locations.

Toronto's human rights awards

Council extended its congratulations to the individuals and an organization selected by a community panel as recipients of the 2016 City of Toronto Access, Equity and Human Rights Awards. Fizul Sima receives the Aboriginal Affairs Award; Maayan Ziv, the Access Award; Alex Abramovich, the Pride Award; and Black Lives Matter Toronto, the William P. Hubbard Award.

Tribute to Muhammad Ali

A motion approved by Council will provide funding to create and install a plaque commemorating Muhammad Ali's visit to Toronto in 1966 for a boxing match against George Chuvalo at Maple Leaf Gardens. Prior to the fight, Ali trained at Earl Sullivan's Toronto Athletic Club at 109 Ossington Ave., the site chosen for the new plaque. The motion said Ali's recent death provided a timely occasion to commemorate the famous fight and Ali's visit to Toronto at a critical time in his career.

Road hockey and basketball

Council voted to amend Toronto's municipal code to remove the long-standing but seldom enforced prohibition against placing portable basketball or hockey nets for games on streets (the public right of way). The motion that Council adopted specifies that hockey or basketball can be played on local roads that have a speed limit of 40 km/h or lower, and the activity must not obstruct driveways, pose a hazard to pedestrians and other traffic, or impede maintenance work.

Tragically Hip's final concert

Council authorized staff to look into screening the broadcast of the final concert by the Tragically Hip in a Toronto square, theatre or park. CBC plans to broadcast and stream the Canadian rock band's final performance, which is to take place in Kingston on August 20.

11. Celebrate Simcoe Day at a variety of City of Toronto attractions

The City of Toronto encourages residents and visitors to take advantage of the City's attractions and recreational sites open to enjoy during Simcoe Day on Monday, August 1.

Outdoor pools, wading pools and splash pads

Beat the heat and drop by your local outdoor pool, splash pad or wading pool on Simcoe day. Indoor pools and community centres will be closed. All City outdoor pools, wading pools and splash pads will be open. More information about locations and hours of operation is available at <http://toronto.ca/swim>.

Golf

All five City-run golf courses will be open and offer holiday rates on August 1. More information about hours and locations is available at <http://www.toronto.ca/golf>.

Tennis courts

All public tennis court sites will have nets up and will be available for use throughout the weekend. Public sites are free and available to the general public. Tennis players are asked to share the courts by limiting their play time to half-hour intervals if others are waiting to use the courts. More information on tennis is available at <http://toronto.ca/tennis>.

Riverdale Farm

Riverdale Farm is home to a variety of domestic farm animals, including Tamworth pigs, baby goats and Cotswold lambs. The breeds represent animals commonly found on a late 19th century Ontario farm. Riverdale Farm is open from 9 a.m. to 5 p.m. and admission is free. More information is available at <http://toronto.ca/parks/zoo> or by calling 311.

High Park Zoo

Toronto's oldest zoo has been entertaining people for over 120 years. The zoo houses domestic and exotic animals such as bison, llamas, highland cattle and reindeer. Visit our famous capybaras, dubbed Bonnie and Clyde. The zoo is open daily from 7 a.m. to dusk. Admission is free. More information is available at <http://www.toronto.ca/parks/zoo/>.

Toronto Islands (ferry located at the foot of Bay Street)

The Islands are Toronto's largest downtown park. The park offers a variety of fun – a great place to walk, cycle, explore and view the city skyline. For more information, visit <http://www.toronto.ca/parks/island>.

Getting to the Islands by ferry is half the fun. Toronto's ferries can carry more than 4,000 passengers an hour to and from the Islands. Arrive early to avoid long lineups or check peak hours and wait times online at <http://www.toronto.ca/ferry>.

Conservatories

A wide variety of flowers are in full bloom at Allan Gardens Conservatory and Centennial Park Conservatory. Both conservatories are open daily from 10 a.m. to 5 p.m. Admission is free. More information is available by calling Allan Gardens Conservatory at 416-392-7288 or Centennial Park Conservatory at 416-394-8543 or online at <http://www.toronto.ca/conservatories>.

Simcoe Day at Toronto's Historic Sites

Three of the City's 10 historic sites will offer events, activities and tours on Simcoe Day. Programming highlights for the open sites are listed below. All of the City's historic sites will be open with many activities over the long weekend. Times and activity details will vary by location. More information is available at: <http://www.toronto.ca/museum-events>.

Fort York National Historic Site (250 Fort York Blvd.)

Fort York celebrates Lieutenant-Governor John Graves Simcoe, who founded the town of York (Toronto) in 1793 and was the first Lieutenant-Governor of Upper Canada (Ontario). Simcoe also lived at Fort

York, the birthplace of Toronto. Experience Toronto's history with musketry, cannons and music demonstrations by the Fort York Guard and Guards from Fort George National Historic Park from Niagara-on-the-Lake and Old Fort Erie. Admission is free. Fort York is open from 10 a.m. to 5 p.m.

Gibson House Museum (5172 Yonge St.)

Visitors can take part in games on the lawn, taste hand-made ice cream and tour the 1850s home of David and Eliza Gibson. There will also be activities and performances designed by the museum's youth volunteer team and visitors can make a craft to take home. Admission is pay what you wish. The museum is open from noon to 4:30 p.m.

Spadina Museum (285 Spadina Rd.)

The museum will be open and will host afternoon tours focused on the Austin family, who originally made Spadina Museum their home. Regular admission applies. The museum is open from noon to 5 p.m.

14. St. Lawrence Market & The Food Dudes collaborate on the first St. Lawrence Market Summer Series event

On Thursday, August 4 from 6 to 10 p.m., the St. Lawrence Market patio will be transformed into a downtown oasis of food, drink, music, performance and celebration. This new St. Lawrence Market Summer Series event, presented in partnership with The Food Dudes, a Toronto catering and events

company, joins the Market's storied purveyors with Toronto's finest chefs, musicians and artists in a true feast for the senses.

Built upon the smashing success of The Food Dudes' Block Party series and the St. Lawrence Market's world-renowned reputation as a top food market, the innovative Summer Series production merges cuisine and art in an iconic setting to create an unforgettable evening you won't want to miss.

Tickets for the Summer Series can be purchased online through stlawrencemarket.com. General admission tickets are \$30 (plus taxes and fees) and include two food tickets for use at the event. Drink tickets and additional food tickets will be available for purchase onsite on August 4.

With Food Dudes chefs and local Market merchants serving innovative features and celebrated classics, the Summer Series is the best way to spend a summer evening on one of the city's largest patios.

Summer Series event sponsors include Amsterdam Brewery, Tequila Tromba, Sole Power Productions and Chair-man Mills.

St. Lawrence Market is a renowned international food market featuring 120 merchants, vendors and farmers, offering the freshest produce, meats and specialty items. Serving residents of Toronto and international visitors since 1803, the Market is regularly recognized as one of Toronto's most popular destinations, and was ranked the number one food market in the world by National Geographic. The St. Lawrence Market Complex comprises St. Lawrence Hall, the South Market and the North Market – now in its temporary home at 125 The Esplanade. For information on the St. Lawrence Market Complex visit stlawrencemarket.com, like us on Facebook /StLawrenceMarket, or follow us on Twitter [@StLawrenceMkt](https://twitter.com/StLawrenceMkt) and Instagram [@StLawrenceMarket](https://www.instagram.com/StLawrenceMarket).

What's Inside

15. TRCA – Shoreline Clean up along the shore of Guild Park and Gardens

Work to clean up the dangerous and unsightly metal rebar along the shore of Guild Park and the nearby stretch of waterfront is beginning next week (starting August 2/16).

This improvement is part of the Toronto & Region Conservation Authority's (TRCA) Waterfront Project. Plans call for the TRCA to cover the existing metal reinforcement bars (rebar) and building rubble along the water's edge. Trucks will dump clean material over the affected area.

This new material will hide the hazardous fill, plus give further stabilization to the shore and the unimproved roadway between the Guild Park area and westward toward the Doris McCarthy Trail (south of Bellamy Road).

The TRCA is doing this work after the Guildwood Village Community Association has raised concerns about the poor condition of this popular walking area along Lake Ontario.

The TRCA anticipates this project will take about three weeks. It will require about 30 heavy trucks to transport clean fill to the waterfront area.

During the project, the TRCA is restricting public access along the unimproved road east of the Guild Inn, leading from Guildford Parkway (south of Galloway Road) down to the waterfront (see map).

This roadway will be closed to the public each weekday between 7 am to 5 pm to allow heavy trucks to travel unimpeded up and down this route.

The roadway will be available for pedestrian use at other times, including weekends.

For further information, the contact at the TRCA is Jet Taylor, Project Coordinator, Engineering Projects, Restoration and Infrastructure Division. Phone: 416-688-7627; Email: jtaylor@trca.on.ca

16. Scouts Canada in 7 Oaks

Venturers is a part of Scouts Canada! For youth ages 14-17, we meet weekly and plan our Service and OUTDOOR adventures. The goal of Venturers is to encourage youth to plan their own adventures, with some adult guidance or advice. There is a Big World out there and we mean to embrace it!

Some Venturer Companies are hiking the Bruce Trail - canoeing Algonquin Park - learning vocational skills such as EMS with advanced First Aid. We help younger kids too and earn required community service hours to help us while at high school. We visit area businesses and learn about new careers. We are involved.

Contact Doug Ruggles, Venturer Advisor at [416-724-9215](tel:416-724-9215) for information on becoming a Venturer here in 7 Oaks. Or visit www.scouts.ca and click on Venturers. Join us - our motto is CHALLENGE. Fit us in to your young busy life - it is truly worth it!

Scouting has never been more active in 7 Oaks... 1st Centenary is quietly meeting at our area schools, training new adult leaders and showing our youth the importance of OUT in ScOUTing outdoors!

But we can still grow! Parents everywhere across Canada have seen the importance of reducing screen time and encouraging cooperative play with their youngsters. Scouting fits the bill perfectly!

Medical professionals have warned about obesity. Scouting trims that package neatly!

Business leaders are concerned that the youth of today will not be adequately trained for the demands of tomorrow. Scouts Canada with the funding of major corporations has introduced STEP - the first

programme of its kind that shows girls and boys the fun of science and engineering in a play setting. Check it out!

We meet Wednesdays at St Edmund Campion and Highcastle PS. Times and age groups vary so give us a call at [416-724-9215](tel:416-724-9215) and explore what Scouts can do for your boy or girl, ages 5 to 26!!

Special Notice. IF you were an adult leader in Scouting ANYWHERE in the world, bring us a badge, hat pin, lapel pin or any other marker and we have a SPECIAL SURPRISE AWARD for you!! Ask for Scouter Doug

17. UTSC Testing Mass Notification Speakers - Thursday August 4

University of Toronto Scarborough's Department of Campus Safety and Security will test a series of audible outdoor announcements for our mass notification system, in the afternoon of Thursday, August 4th. In an effort to minimize any inconvenience to you and your family, test of the system will be done only between 12-3 p.m. The mass notification system includes outdoor speakers, which may be audible on or nearby Military Trail.

The testing is part of the University's effort to evaluate and improve our ability to provide timely and effective notifications in the unlikely event of an emergency on our campus.

If you have questions, please contact Carvill Lo at 416-287-7599 or locarvil@utsc.utoronto.ca
